

UBCC MISSION

This UBCC was incorporated to promote commerce and industry for the advancement of economic vitality within the Black community.

One of the best ways to make this happen is to grow a membership base that will create influence within the community. We have set our sight on promoting economic and professional development of Black-owned business and professionals, thus enhancing the quality of life in our community.

You are being offered an opportunity to support the chamber by becoming a member. Your membership contributes to making the vision of economic prosperity become a reality. This membership leads to the creation of a power in numbers. Collectively, we will be able to address issues that negatively affect the business environment and the working professionals.

In addition, this will set up a support group for anyone that is in need of assistance. It could be a person with a desire of starting a new business or someone experiencing growth and prosperity problems.
